

Press Release

Compact 14 – Electric Scissor

Placing the client and innovation at the core of the company's mission, has enabled, the world's number 3 manufacturer of aerial work platforms, to develop a complete range of more than 60 models.

This drive to innovate gives rise to numerous new machines every year and makes Haulotte Group the specialist of people and material lifting equipments.

Designed to meet the needs of a wide range of industries, the electric scissor **Compact 14** offers many benefits and is particularly suited to building maintenance, logistic operations, the shipbuilding industry ... and many others applications.

➤ **Optimal compactness**

With only 1.20 m width, 2.50 m height in the stowed position, and pull-down guardrails, the Compact 14 can go everywhere.

➤ **Easy to use**

Continuous optimum movement management, a removable panel control in platform, and a tight turning radius make of the electric scissor **Compact 14** a general-purpose machine.

The Compact 14 has a 13 cm ground clearance allowing easy circulation on industrial floors which are not perfectly flat.

➤ **Total safety**

The **Compact 14** has a Pot Hole device offering a maximum safety for the user. It also has a tilt control, a load limiter in the basket and a manual emergency descent handle.

➤ **Optimal productivity**

All the characteristics developed above offer many advantages which allow a faster maintenance and servicing and optimal productivity.

Furthermore, the **Compact 14** offers drives at 3 km/h, has gradeability of 23 % and a load capacity of 350 kg.

➤ **Easy to maintain**

The free wheeling device and the integrated forklift pocket into the frames facilitate loading and the unloading for transporting. The **Compact 14** has also towing hooks. Maintenance is facilitated by the access to components in a drawer. Finally, the battery charger has an automatic stop.

Offering maximum safety, **Compact 14** complies with the latest labour regulations, to European (EC marking, EN 280) and also international standards (ANSI, CSA, AS ...).
